E-mail: hello@naushikha.com
Website: naushikha.com

PROFILE

Hardworking, self-motivated ambitious programmer with a keen eye for detail. Excellent track record of performance in all tasks undertaken with exceeding 4 years of cumulative industrial experience in fields such as networking, customer support and tutoring. Aiming to work in a challenging but friendly environment with a goal to become a part of a team. Secondary interest is in DevOps.

EXPERIENCE

SOFTWARE ENGINEER INTERN

SimCentric Technologies (Oct 2021 - May 2022)

- Working on SAF-TAC: a virtual reality based tactical military simulator.

SYSTEM ENGINEER

Telasis Solutions (2017 - 2019)

- System and network installation and administration.
- Server and desktop hardware configuration.

WEB DEVELOPMENT MANAGER

SEDS UOC (Jan 2021 - May 2022)

- Leading the creation and maintenance of SEDS UOC website and blog.
- Handling all the web-related technicalities of the organization.

PROJECTS

SPOTIFY WIDGET

Cloudflare Powered Middleware - 2021

- Runs as a serverless application on Cloudflare.
- Open source solution that can embed your currently playing song on Spotify in a website as a widget.

LIGHTER FRAMEWORK

PHP MVC Framework - 2021

- Based on the initial SLMOsys framework I designed.
- Modular and a somewhat opinionated framework but is a great lightweight framework to kickstart small PHP MVC applications.
  Repo Link

SEDSUOC.LK

Web and Blog Design - 2021

- Designed using pure HTML, CSS, JS and WordPress.
- As the web development manager of SEDS UOC, led the team to create and maintain the website and blog.
